

Capacity Building Training in the Technology Transfer Ecosystem – Applications Now
Open!

Organizer: "Dunărea de Jos" University of Galați (UDJG)

■ We are excited to announce that **registrations are now open** for the online **Capacity Building Training** sessions in the technology transfer ecosystem, organized within the framework of the **Transnational Technology Transfer Network for the Black Sea Basin (T3N-BSB)** Project!

These training sessions will focus on **technology transfer processes** and will be delivered **free of charge** by experts from "Dunărea de Jos" University of Galați (UDJG). This activity is part of the **T3N-BSB Project (BSB00264)**, co-funded by the **European Union** through the **Interreg VI-B NEXT Black Sea Basin Programme**.

Training Details:

Duration: 4 days (16 hours)

Dates: July 4th, 7th, 10th, 11th

Time: 16:00 – 20:00 (GMT+2)

✓ Format: Online

Language: Romanian / English

Cost: Free of charge

Participation: Limited seats available

Attendance: 100% mandatory

About the Training:

This training aims to strengthen the capacities of participants involved in **technology transfer, innovation**, and **research valorization**.

It is part of the T3N-BSB Project – Transnational Technology Transfer Network for the Black Sea Basin, in which UDJG is the official Romanian partner.

Participation is entirely free, and the program includes **16 hours of theoretical online sessions**, covering key topics such as:

- Management of Technological Collaboration
- TTO Operations and Sustainability
- Developing Entrepreneurial Skills in Tech Transfer
- Management and Licensing of Intellectual Property Rights
- Innovation Management
- Research Marketing and Technology Transfer
- Technology Brokerage Introduction
- Access to International Funding Sources

The training will be held in **Romanian/English**, with additional materials provided in English.

6 Who Can Apply?

These sessions are specifically intended for:

- Technology Transfer Office (TTO) staff
- Researchers, PhD students, students, and academic staff
- Entrepreneurs and innovators
- Industry representatives
- Members of innovation clusters

Certification:

Participants who successfully complete the training and score at least **90**% on the final exam will receive an **international certificate** recognized by all project partners.

About the Project:

The **T3N-BSB Project (BSB00264)** is a transnational initiative implemented by partner organizations from **Türkiye**, **Bulgaria**, **Greece**, and **Romania**. The **project leader** is **Karadeniz Technical University** (Türkiye).

Its goal is to establish a **sustainable transnational technology transfer network** in the Black Sea Region.

- Project Partners:
- ✓ Karadeniz Technical University Technology Transfer Center (Türkiye)
- Centre for Research and Technology Hellas CERTH (Greece)
- Bulgarian Association for Transfer of Technology and Innovation BATTI (Bulgaria)
- "Dunărea de Jos" University of Galați UDJG (Romania)

UDJG plays a key role in implementing the training activities in Romania, offering expertise, content, and coordinating the engagement of national stakeholders.
